## || Legacy Series

### **FIESTA'S NEW GENERATION OF TENTS, A PERFECT ADDITION TO OUR CURRENT DESIGNS.**

With its curved lines, the Legacy Series boasts aerodynamic qualities and an innovative look that is sure to draw the eye of everyone in the industry. This tent expands in both width and length without compromising solidity, all the while minimizing the number of additional parts required.

Combining the advantages of frame tents and clear span structures, this product will no doubt add value to anyone's tent rental inventory. Features include kedered roofs and walls, curved beam arches, rigid connectors and frame assembly without any nuts or bolts.

In addition, this tent line can be set up as a frame tent or as a clear span structure.

**MANUFACTURED BY  
FIESTA TENTES LTD.**

**WARNING**  
This product has been manufactured for use as a temporary structure. For the safety of all occupants, evacuation is recommended if threatening weather occurs or if there is any doubt concerning the safe use of this product.

## TECHNOLOGY

Anodized aluminum frame assembly composed of a 2 5/16" x 3 1/2" extruded box beam  
 Self-standing structure  
 Rigid connectors  
 Clear anodized finish on all aluminum components  
 All steel components with galvanized or zinc plated finish  
 No nuts or bolts required for frame assembly  
 Anchoring directly in tent upright base plates with or without guy outs  
 Expandable structure in width and length  
 10' arches convertible into 20' and/or 30' arches by adding rafter extensions

Standard bays in increments of 15' and 10'  
 Vinyl tops integrated to the extruded aluminum frame (sliding "kedered" tops)  
 Vinyl walls integrated to the extruded aluminum frame (sliding "kedered" walls) with median divider (2 pcs)  
 Vinyl walls with or without wall bars  
 Compatible with Solara series vinyl walls

## FEATURES

Less parts  
 Very versatile  
 New extrusion  
 Easier and faster installation  
 Structure with guy outs or side/roof steel cable bracing (bracing required when installed as self standing clear span)  
 Gable end frame  
 Engineered to building code: ASCE 7-02

Solid frame structure composed of a 2 5/16" x 3 1/2" extruded aluminum box beam

Legacy 10'

Legacy 20'

Legacy 30'

## OPTIONS

VINYL CHOICES  
 Tops and walls:  
 1. Laminated white translucent or B/O vinyl  
 2. Coated white translucent or B/O vinyl  
 3. Colored vinyl  
 4. Digitally printed vinyl

Types of walls:  
 Vinyl walls are offered with or without pass pole pockets.

1. Solid white or colored  
 2. Cathedral / French window  
 3. Clear window  
 4. Arched window  
 (Hard walls; rigid PVC or glass also available)

## COMMERCIAL TENT DOORS

Modularly double and single door system, tempered glass or rigid PVC panels available. See other technical sheet for more details.

Standard side height	8'6"	8'6"	8'6"
Standard ridge height	11'3"	14'3"	17'3"
Width inside uprights / width outside uprights	9'5" / 10'	19'5" / 20'	29'5" / 30'
Additional bays center to center	10' - 15'	10' - 15'	10' - 15'
Maximum expandability	20' - 30'	30'	30'
